Lažne vijesti?

Velik broj lažnih vijesti i članaka sadrži grafove ili matematičke podatke.

Charles Seife, profesor novinarstva u na sveučilištu u New Yorku zaključio je:

“We think of numbers as something other than human,” rekao je.

“But numbers that we use in the everyday world are very much human and they’re created, manipulated, and presented by humans.”

Obmanjujući grafovi

EXAMPLE: How is the graph below misleading? What argument might someone who created the graph want to make?

Analyze It Look for clues like the wrong graph type, mislabeled axes, or a scale that's too big or small.

CAREERS TEENS SAY THEY WANT TO PURSUE

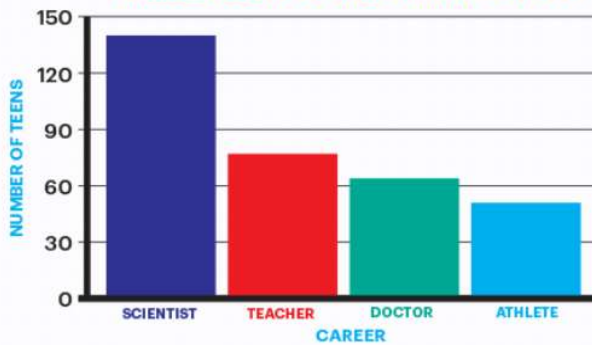

The scale doesn't start at 0.

The scale exaggerates the popularity of a career as a scientist and makes athlete look like a much less popular choice.

Check It

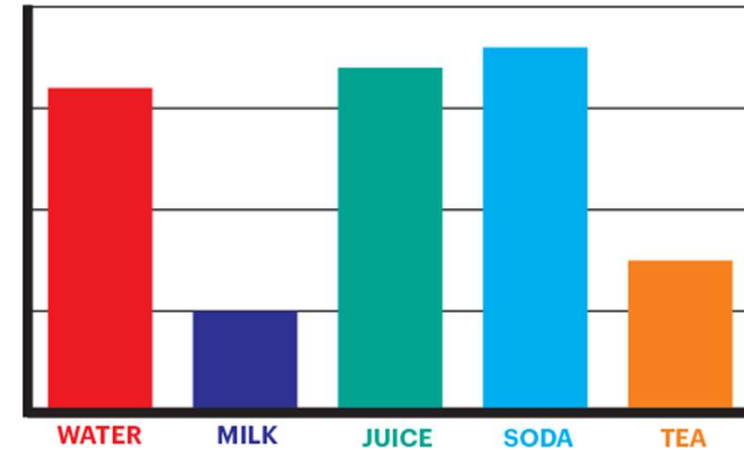

Here's what we did to fix it: We started the y-axis scale at 0 and made sure all bars follow it. More respondents do want to pursue a career as a scientist instead of as an athlete but the difference isn't as dramatic as the original graph depicts.

DANIELA GIRL WINS \$1M IN SURFING CONTEST

San Diego Square Dance Association

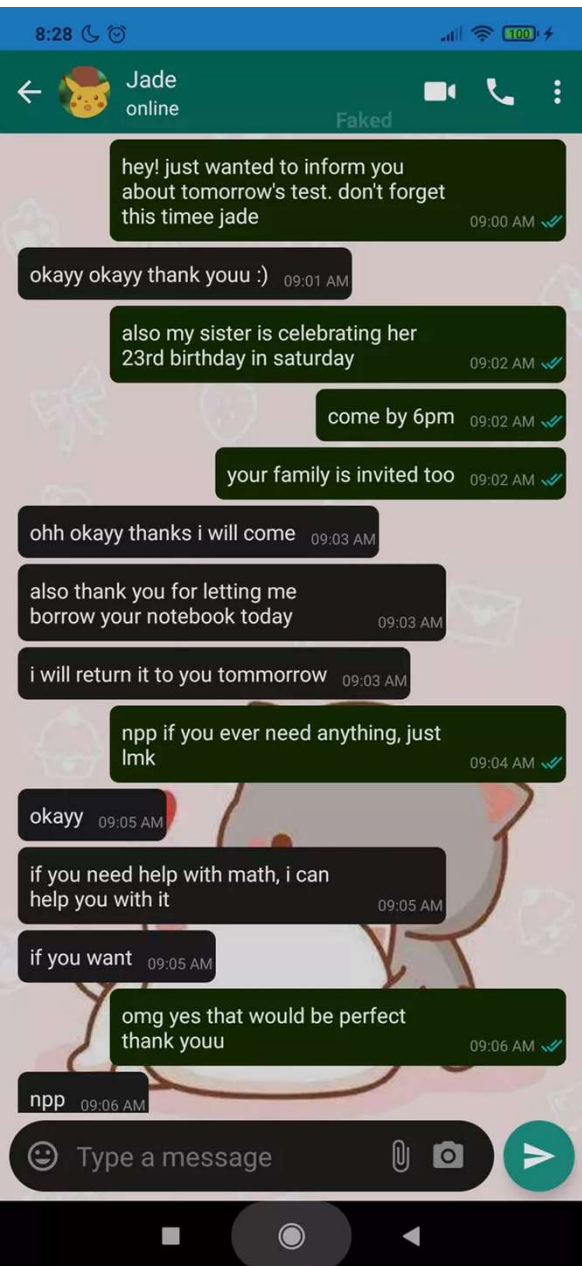

BEDEKOVČINA, CROATIA — Daniela Girl took first place in this year's annual Bedekovčina, Croatia Pipe Contest. Girl took on major surfers like Kelly Slater, Billy Kemper, and Jadsion Andre in three different pipe qualifying rounds. In each round, Girl placed first, setting the bar by shredding some serious tide and pulling off some incredible barrels.

The \$1 Million prize was put together mostly by major sponsors to the event. The prize is surely enough to get by for a while on, but we don't see Girl leaving the water anytime soon.

Girl may be the next biggest thing to hit the tides. One thing is for sure, this is not the last time we will see Daniela Girl.
